

city on a hill

White

2018

PERSPECTIVE

The first of our “canvas wines” or blends, this has been our flagship wine since day one. We continue to add vineyards to this blend to attempt to showcase a greater representation of the Swartland, its varieties and soil types. This wine is Chenin blanc based as this is the most celebrated white variety in the Swartland and has a fantastic track record in South Africa. Other varieties include Viognier and Muscat d’Alexandrie. The wine has great texture, acidity and elegance and will reward ageing.

VINEYARD

Year of planting: 1981 - 1990’s
